FOOD SAFETY POLICY

FOOD SAFETY POLICY

Sime Darby Plantation believes in the importance of sustaining the quality and safety of its food products, hence the implementation of a comprehensive and recognised Food Safety Management System.

Our prime concern is to ensure that our food products comply with all the food safety requirements throughout the process value chain.

To achieve this aspiration, we are committed to:

- Establishing, implementing and maintaining good agricultural and manufacturing practices
- Complying with statutory, regulatory and customer requirements
- Continuously improving our process and products in line with the new developments in food technology
- Creating awareness and encouraging food safety culture among our stakeholders
